The Randwick Collaboration Area was formed in October 2017. Fourteen organisations from government and non-government sectors developed the shared vision and priorities in the Randwick Place Strategy. In 2019 a smaller group emerged as the Randwick Collaboration Area group (RCA Group). Since its establishment, the RCA Group has focused on developing networks, insights, and support to accelerate key actions.

The RCA Group is the core governance group that brings together:

- Randwick City Council
- The University of New South Wales
- South East Sydney Local Health District
- Health Infrastructure NSW, and
- the Australian Turf Club.

Several organisations that participated in the creation of the Place Strategy support the RCA group through ongoing involvement in activities working groups, including: Department of Planning Industry and Environment (DPIE), Transport for NSW, Sydney Water, Create NSW, TAFE NSW.
Highlights from 2020

By working together, the RCA group members are addressing the Place Strategy themes including:

**Governance** – through networking meetings and events to share insights, align interests, identify enduring resources and funding, and bring about two joint initiatives

**Connectivity** – with the South East Sydney Transport Strategy released and the promotion of active transport through better walking and cycling connections with the travel demand management strategy

**Sustainability** – by bringing funds together and engaging with DPIE and 2XE to initiate a collaborative net zero emissions strategy that will focus on outcomes that members can pursue together

**Productivity and Liveability** – through the growth of the Health & Education Precinct with the Prince of Wales Integrated Acute Services building under construction and the planning of the UNSW’s Health Translation Hub and the new Sydney Children’s Hospital.

Outlook and opportunities for 2021

Over 2021 the RCA group intends to focus on four priority outcomes:

1. **Greater focus** to attract support from new partners
2. **Leadership engagement** to tackle shared priorities together
3. **Collective reach** to advocate for better outcomes from infrastructure plans and projects
4. **Deep Dives** into opportunities such as lessons from the collaborative net zero emissions strategy and pilot travel demand management projects.
Acknowledgement of Country
The Greater Sydney Commission acknowledges the Gadigal people of the Eora Nation, the traditional owners of the lands that include the Randwick Collaboration Area, and the living culture of the traditional custodians of these lands. The Commission recognises that the traditional owners have occupied and cared for this Country over countless generations and celebrates their continuing contribution to the life of Greater Sydney.
